

ORS Jump and Bounce Social GROUP

About OUR Social Groups

ORS social groups are carefully crafted to provide a secure environment where people can connect with peers while receiving guidance from practitioners who specialise in paediatrics. The main objective is to facilitate social interactions and foster a sense of community among individuals who share a common interest.

What is Jump and Bounce Group?

In Jump and Bounce we explore what our bodies can do through gross motor challenges and tricks.

We focus on:

- > Problem solving including developing strategies and asking for help
- > Partner work and how we communicate with our partner if we are ok or not
- > Motor planning as we learn new patterns of movement
- > Matching our energy level to the task we are trying to do

Suitable for:

School-aged children (ages 5 to 18)

When:

Scan here or click below
