

ORS LEGO Social GROUP

About OUR Social Groups

ORS social groups are carefully crafted to provide a secure environment where people can connect with peers while receiving guidance from practitioners who specialise in paediatrics. The main objective is to facilitate social interactions and foster a sense of community among individuals who share a common interest.

What is LEGO Group?

Our Lego Group is all about working collaboratively as a team to achieve a common goal. In the group, each person is assigned a role to help complete the project. These roles include architect, supplier and builder.

We target:

- > Problem solving including developing strategies and asking for help
- > Communication repair for when the other person didn't understand our instructions
- > Following directions to complete the project

Allied health services that work

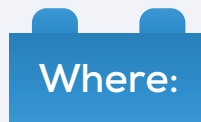

Suitable for:

School-aged children (ages 5 to 18)
